

At Blueface, we can provide your business with innovative Telecoms solutions that cut costs and offer great functionality. Time is money in your business and we know that you want the best in office telecoms minus the hefty price tag or the hassle. You want a telecoms company that speaks plain English and delivers what you need, when you need it.

We don't baffle our customers with jargon or terminology. We definitely don't try to push "one size fits all" products and services. We design our products and services with customers like you in mind. We try our best to understand your needs and to put them at the centre of our solutions. We call this Empowered Telecoms.

We design a telecoms service for your business. Blueface Business Customers can choose a basic call plan (like the ones below) and select service options/bundles. Or we can design a service especially for you - whichever you prefer. We aim to fit our world class telecoms products and services around you, our customer, and offer innovative ways to manage call costs, functionality, flexibility and scalability.

Please check our website www.blueface.ie for some background information on our Business services or alternatively give us a call on **01 524 2000** to talk to one of our telecoms advisors.
