

# PANASONIC

Panasonic's Cordless Phone System is "easy to use" and powerful at the same time. Packed with business features it is ideal for any emerging enterprise or established small business looking for the latest technology without the heavy price tag. The solution offers excellent features and services to the business customer and all in a highly cost effective way. This compares favourably with the charges some telecoms companies apply to Voicemail, Fax services or Call conferencing.

## KX-TGP 500

KX-TGP 500 – The flexibility of a cordless handset with all the features and functionality of a traditional desk phone.

Brighter Communications

# Phone Features

## Voicemail Box

Receive a free Voicemail box with all Blueface Business plans.

## Voicemail to Email

Get voicemail messages delivered to your inbox as an audio file.

## Call Transfer

Transfer calls to another number, mobile or landline.

## Call Hold/Resume

Place calls on hold and resume calls with the click of a button.

## Follow Me

Re-direct incoming calls to ring multiple numbers based on various call paths, or to leave a voicemail message.

## Call Waiting

Be notified of incoming calls whilst on the phone by a beep tone and swap between calls.

## Call Forward

Forward calls to another number, mobile or landline when you're busy or away. Never miss a call.

## Caller ID selection

Set your 'original' PSTN number to display in Caller ID, so the call recipient can recognise your number.
